Sierra Club Will Seek Investigator Status in Diablo Canyon Hearings

Plant closure deal needs work

The Sierra Club will seek permission from the Public Utilities Commission to intervene in Diablo's relicensing of Diablo Canyon Power Plant, to shore up a deal that is pending. The process would likely set the stage for some state Supreme Court decision on whether the PUC has the authority to do that. The hearing on that will be in mid-October, and the public utility commission is expected to make its decision at that time.
